KNIGHTS OF LABOR

Statement of Knights of Labor L. A. No. 3,017, Nanaimo, B. C. :

British Columbia has been well described as a land of almost limitless resources ; but few countries in the whole world have been so favored by nature, certainly no other portion of the Dominion. Though, possibly, possessing a smaller area of agricultural land than some of the other provinces, the extreme fertility of the soil compensates for this, while her other advantages throw everything else into the shade. The climate is unrivalled ; there are great forests of the finest timber ; the fisheries furnish an exhaustless source of wealth. Gold has been found in large quantities, and many other useful and valuable metals are known to occur. Indeed, from the many valuable discoveries already made, and constantly being made, it is a certainty that the metalliferous deposits are extremely rich and very extensive. In addition to all those advantages the province possesses a right royal dower in her vast stores of coal and iron, which render her well fitted to become the seat of great manufacturing industries. Geographically the province is also well situated for trade, and, with her numerous splendid harbors, is in a commanding position for carrying on an extended foreign commerce. Taken all in all British Columbia is a grand province, a most valuable addition to the Dominion.

No one of the other provinces has all the means within herself, as she has, of becoming a rich and populous nation, with large agricultural, mining, manufacturing and commercial industries. Surely then, it should be the aim, as it is the manifest duty, of all Canadian statesmen to attach this grand province to the Dominion in the firmest manner possible. They should seek to develop her immense resources in such a manner as will conduce to the best interests of the whole nation. They should endeavor to settle her lands with an intelligent, independent people, imbued with the spirit of patriotism, and bound to their brethren in the other provinces by the sympathetic ties which always exist between those who are akin in blood, who speak a common language, who have the same manners and customs, who have been trained under the same laws, institutions, rules, and usages, and who are animated by the same hopes, aims, and aspirations. Such a people would be of incalculable service in eradicating those prevalent, narrow, sectional feelings, and local jealousies, born of long-continued isolation and neglect, and in infusing and spreading a wide, healthy, national sentiment, and an abiding faith in the resources and destinies of the great Dominion, without which Canada can never become a great nation, united and powerful.

That the Chinese are not such a people it hardly requires argument to prove. All who have ever come into close contact with them are satisfied that they are not only a most undesirable but a positively dangerous class to any country having free popular institutions. The great Australasian colonies recognized the danger and enacted laws to restrict their coming, while our nearest neighbors the United States have been forced to prohibit their entry into that great country ; and our own experience confirms that of others and warns us of the dangers of allowing them to come to our shores.

They have no conception of a popular government : by the people, of the people, and for the people, and consequently are not fitted to enter into our political life ; nor do they seem desirous of doing so, for, except in very rare cases, they never attempt to assimilate with us ; nor do they ever voluntarily conform to our laws, rules and usages, but remain under all circumstances a distinct and separate people, having distinct and separate aims, taking no part in our social or political life, and having no sympathy in our higher aims and objects.

Wealth of British Columbia.

No other province has so many of the means within herself of becoming a nation.

Lands should be settled with an intelligent patriotic people.

This would develop a true national spirit.

Chinese not only undesirable but dangerous.

They have no conception of constitutional government.
